Article written for The Journal of the Endodontic Society of the Philippines, maiden issue, 2006
3. "Endodontic–Periodontal Lesions: Recognition, Diagnosis and Management"
Paper submitted to the Academy of Dentistry International

ABSTRACT:

TITLE: The Endodontic-Periodontal Lesions: Recognition, Diagnosis and Management

Dr. MARIE ANTONIETTE R. VELUZ

The Identification and Treatment of the Endo - perio lesion is a usual problem for most dental practitioners. Common symptoms to both lesions are said to mimic each other which may result to incorrect diagnosis leading to therapeutic interventions that do not necessarily address the actual lesion.

A thorough understanding of the Endo-perio lesion, it's diagnosis and management are the aims of this presentation to be able to crack the Endo-perio dilemma.
